## LANGUAGES

English - advanced

## ABOUT ME

Interested and having experience in producing content in different fields, especially textual contents. I'm eager to know different topics and write about them based on my attitude.

The fields that I worked in are cryptocurrency and blockchain technology, IT and technology articles, health articles and product descriptions such as auto parts, PC and toys.

I can work well with wordpress and SEO tools like YOAST SEO for writing seo articles. Also I have enough flexibility to work with a team and learn from them.
